

AHMAD BILAI

Penetration Tester | Offensive Security Specialist

ahmadbilaidi2@gmail.com |

Amman, Jordan | [LinkedIn](#) | [GitHub](#)

SUMMARY

Penetration Tester and Offensive Security Specialist holding 9 industry certifications — including eMAPT, CPTS, CRTE, CRTP, and OSWP — with hands-on experience in Active Directory exploitation and web application security built across 25+ hands-on lab and certification-exam environments (HackTheBox, TryHackMe, and certification practicals). Completed Active Directory attack and Red Team simulation exercises through certification-based labs (CRTP, CRTE, CPTS), ranked 1st among 120 teams at BRK-CYS CTF 2026, and skilled at translating complex technical findings into clear, actionable reports for both technical and non-technical stakeholders.

EXPERIENCE

Application Security Intern

July 2026 – August 2026

ProgressSoft Corporation — Jordan

- Completed hands-on training across 6 security tracks within the Security Department: web application penetration testing, digital forensics, AI security, DevOps, SAST/DAST, and Bash scripting.
- Executed web application penetration tests in controlled lab environments, documenting findings and remediation guidance.
- Applied SAST and DAST tooling across DevOps CI/CD pipelines to surface vulnerabilities earlier in the SDLC.
- Automated recurring security checks and log analysis with Bash scripting.

Instructor

Feb 2026 – August 2026

ITera Academy — Jordan

- Conducted 5+ cybersecurity workshops and awareness sessions reaching 60+ students across schools and universities.
- Delivered practical demonstrations across 4 core areas: cybersecurity fundamentals, ethical hacking, web security, and Capture The Flag (CTF) challenges.
- Developed educational content and hands-on labs for 5+ workshops to simplify complex security concepts.

Cybersecurity Specialist

March 2026 – June 2026

Zarqa University — Zarqa, Jordan

- Redeveloped the university's cybersecurity curriculum to align with industry standards and emerging threats.
- Trained and mentored 40+ students across 10 CTF teams for competitions and hands-on security challenges.
- Managed the Cybersecurity Laboratory, leading practical projects across penetration testing, network security, and applied security research.

EDUCATION

B.Sc. in Cyber Security

February 2026

Zarqa University

Relevant coursework: Advanced Cryptography, Offensive Security, Network Defense, Digital Forensics, Secure Software Development Life Cycle.

SKILLS

Offensive Security: Active Directory Exploitation (Kerberoasting, BloodHound), Web Application Penetration Testing (SQLi, XSS, SSRF), Wireless Auditing (WPA3, Enterprise), Cloud Infrastructure Assessment

Exploitation Suites: Burp Suite Professional, Metasploit Framework, Impacket, Mimikatz, PowerShell Empire, Nmap, GPP/GPO Exploitation

Post-Exploitation: Windows/Linux Privilege Escalation, EDR Evasion, Lateral Movement, Persistence Mechanisms, Kerberos Attacks

Application Security: SAST, DAST, Secure SDLC, DevSecOps, CI/CD Pipeline Integration

Scripting & Automation: Python Security Scripting, Bash, PowerShell, OSINT Framework Architecture

Analysis & Management: Digital Forensics, Network Forensics, Vulnerability Management (Nessus, OpenVAS, Qualys)

Continuous Learning: Self-directed study of advanced penetration testing methodology through HackTheBox, TryHackMe, and independent lab environments

PROJECTS

Spylo 1.0 – Modular OSINT Framework (Personal Project)

- Built an extensible Python-based OSINT framework integrating 20+ intelligence-gathering modules for reconnaissance on target assets.
- Developed custom Python scripts for username enumeration and subdomain/asset discovery to support attack-surface mapping.
- Implemented multithreaded API integration to streamline and speed up reconnaissance workflows.
- Designed data-correlation logic to consolidate intelligence on target organizational infrastructure and potential credential exposure.
- Open-sourced on GitHub.

AWARDS

BRK-CYS CTF 2026

April 2026

- Secured 1st place among 120 teams in a 24-hour technical infrastructure challenge.

BlackHat MEA Finals

December 2025

- Qualified from thousands of competitors globally to compete in the final technical qualifiers.

Elite Agents Competition

February 2025

- Secured 3rd place overall in high-pressure attack/defense scenarios against international teams.

ZUCTF Competition

July 2024

- Ranked 2nd out of 45 competing teams in a 24-hour technical infrastructure challenge.

CERTIFICATES

- eLearnSecurity Mobile Application Penetration Tester (eMAPT)
- Certified Penetration Testing Specialist (CPTS)
- Certified Red Team Expert (CRTE)
- Certified Red Team Professional (CRTP)
- OffSec Wireless Professional (OSWP)
- Certified Red Team Analyst (CRTA)
- Certified AppSec Practitioner (CAP)
- Certified Network Security Practitioner (CNSP)
- CPE Certificate

LANGUAGES

Arabic: Native Proficiency

English: Full Professional Working Proficiency (Fluent in Technical Reporting)
